

# CANADIAN UNIVERSITY OF MODERN TECHNOLOGY

1 SILICON HILL, FREETOWN ROAD, MILE 91.

## WEB DEVELOPMENT & DESIGN

### ASSIGNMENT 2

**NAME:** ABUBAKARR KARGBO

**ID NUMBER:** 2021138

**DEPARTMENT:** COMPUTER SCIENCE

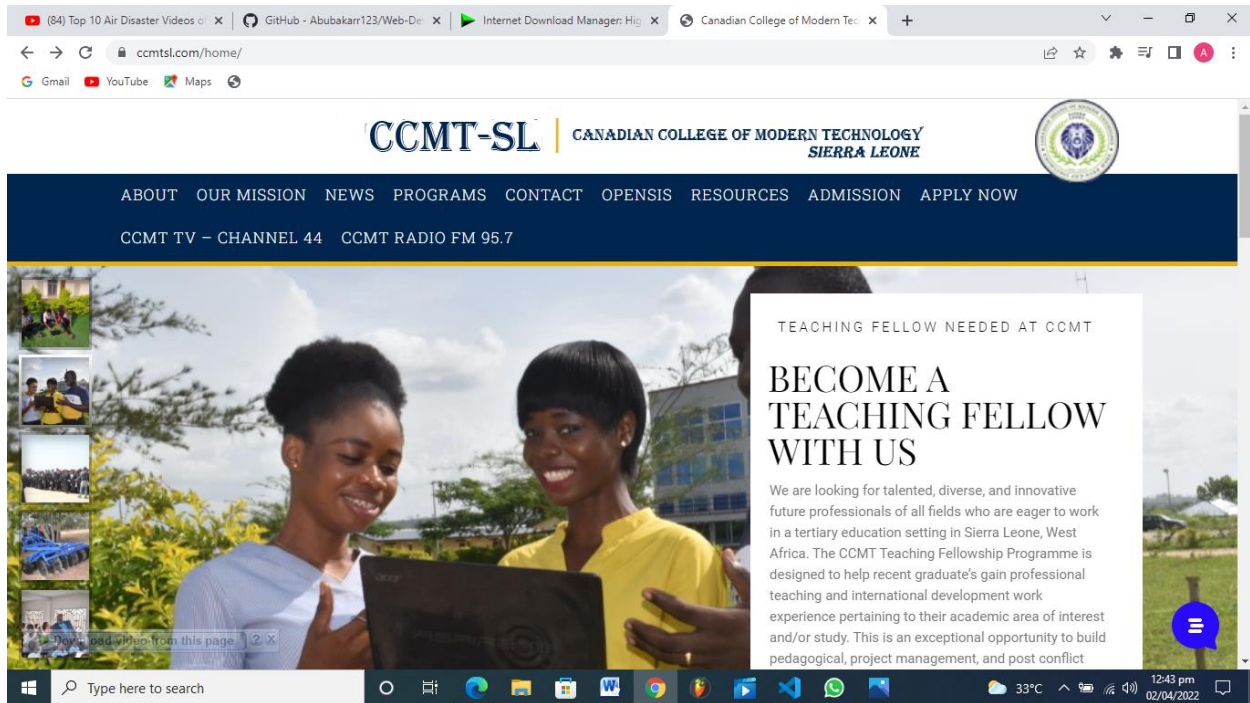

**LECTURER:** Mr. OSMAN KANU

**ASSIGNMENT QUESTION:** Give the view of a particular website on different devices

## Case Study Website

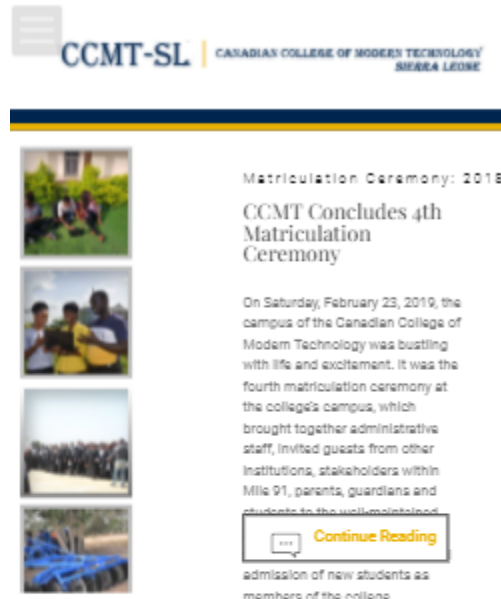

- I'll be using The Canadian College of Modern Technology website.
- It is a website that is used for people to know about the college, admission, programs they offer their resources available and allows online application.

### Laptop View

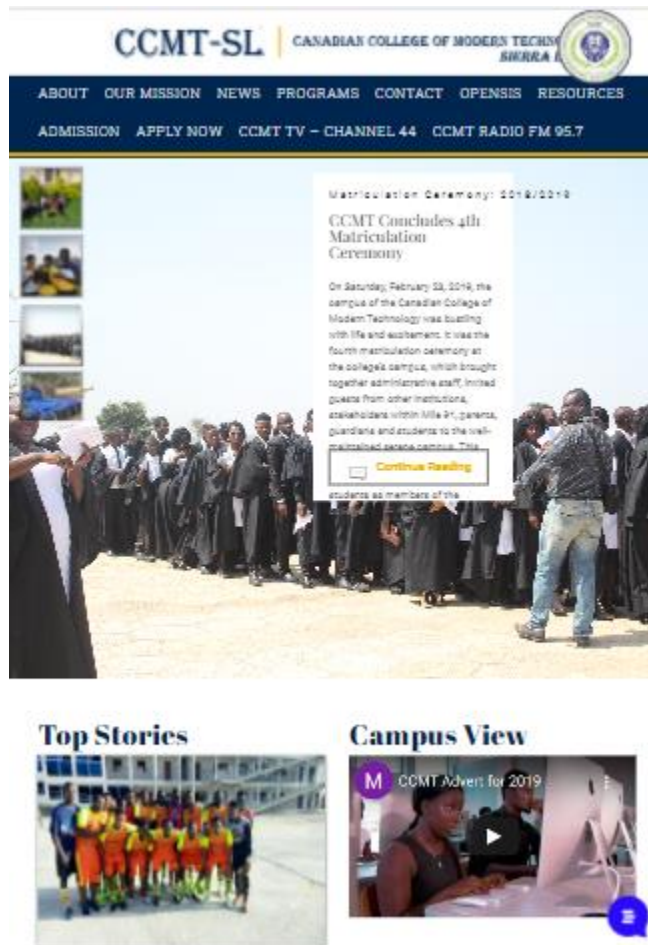

- On the Laptop View, we are seeing all the navigation bars and the College logo at the top of the website and all Pictures and designs are seen clearly.

## Phone View

- The Size of the website on phone decreases as compared to that of a laptop.
- The Logo of the website is not seen, Pictures are not fully seen and also the navigation bars are not seen.

## Ipad View

- In this view, the size of the website reduces but the college badge and all the navigation bars are clearly seen (Everything display literally as of the laptop view).
- All the pictures are clearly seen.
